Whole Future Of America Depends On Britain's Ramparts Holding Out: "Our Time Will Come," Says Writer

"Make no mistake about it. The whole aim of the present rulers of Germany is the utter and complete destruction of democracy—and the United States is a democracy," said Mr. Warren Irving, an American journalist and writer at present in England, in the course of a broadcast from Daventry last night.

"What they seek," continued Mr. Irving, "is world domination by Germany-for, Italy is only a tool in the hands of the Nazis. I am speaking as an American who has been told personally that our time will come. "The Nazi policy aims at to become a Fascist and joined Sir 'ers' quarters. German efficiency

Mr. Irving stated, at the beginning of his talk, that before the Nazi era German efficiency was a recognised fact. Their industries, their scientists and their products were dependable.

"Even before I left Germany last April," said Mr. Irving, "I realised that that was no longer so. This is to be expected in a nation where the education is in the hands of political organisations. Students are no longer taught to think for themselves. They are turned out like Ford! cars, with little learning, little culture and no less originality.

ON THE WANE

"My conviction that German efficiency is on the wane has grown by lecas and bounds. For some months/now Lord Haw-Haw (a correspond at wires and suggests that I call him Lord Hee-Haw) has been trying to persuade the British working classes against their Government. "SLIGHTLY HONORABLE"

SCANDAL STORY AT MAJESTIC THEATRE

Headed by an all-star cast, Walter Wanger's "Slightly Honor. able," a streamlined story of so clety scandal, will be screened at the Majestic Theatre today.

The new film production, based on the best-selling novel by F. G. Presnell is not only a fast-mov. ing, suspenseful tale of the upper crust, it is also a powerful and articulate indictment of racke-

teering and political chicanery. Pat O'Brien, Edward Arnold, Broderick Crawford and Ruth Terry, the new Wanger "discovery who is known in Hollywood as "little cupcake," receive top billing in the excellent cast.

Briefly, the tale of "Slightly Honorable" revolves around civic corruption, scandal in high places and a series of startling crimes. Pat O'Brien, as John Webb, a prominent attorney, undertakes to clean up his state and pits himself against the machine run by Edward Arnold portraying

Vincent Cushing A thrilling climax, packed with punch and surprise, reveals the suave culprit and makes "Blighty Honorable" a "must" on your picture list:

SEVERE DAMAGE DONE Merchant Vessels Believed Hit In Raid On Hamburg

NEW YORK, Sept. 30 (Reuter)—The R.A.F. carried out two successive raids on Berlin on Saturday night, the first lasting three hours, according to reports from Berlin. Hitherto there have been no reports regarding the damage done.

In London it is stated that British raiders, detailed for Berlin despite, the handicap " of unfavourable, " weather, completed; their 600-mile flight to the German capital. They arrived over the city on schedule about midnight, located their targets and bombed the west power station and main transformer and "also the switching station at Friedrichsfeld.

High explosive and incendiary bombs were dropped and bursts were seen close to the targets Successful attacks were also made on railway junctions at Saint Adal, some 65 miles due west

of Berlin. Other night raiders concentrated on rail communications and scored direct hits on a junction at Hamburg, bombed the main line station at Hanover and started fires in a wood bordering the rail. way line near Ommer.

FAMOUS CHINESE ARTIST KEPT TIGER AS PET

An interesting story about Dr Chang Shan-tse, the distinguished Chinese artist from Szechuen, who is noted for his paintings of tigers, was told at Wah Yan College yesterday by the Very Rev. "Fr. E Bourke, S.J., the Headmaster, on the occasion of Dr. Chang's visit to Wah Yan.

It appears that Dr. Chang, beside being a painter of tigers, has also kept one for a pet. Dr. Chang likes his native Chinese tigers particularly, and the beast he kept in his garden visited him in his bedroom regularly at 4 a.m. each morning, "begging for eggs!"

Father Bourke eulogised Dr. Chang's efforts on behalf of war relief in China, and spoke also of his deep interest in the Roman Catholic Faith, which religion the venerable painter of tigers adopted some two years ago.

Dr. Chang was received at the Cchool by members of the Wah Yan College War Relief Associa-

Three Huge Waves At Shek O

Varying reports are coming in on the Shek O Beach incident of Sunday aftenoon when about 430 o'clock a succession of three huge waves, of an estimated 20 feet in height each, rolled up the sands and beyond the tents on the higher portions of the beach, some" 20 yards beyond the normal high tide water level.

Some 50 swimmers were washed towards shore.

A Canadian Chinese from Vancouver lost consciousness when dashed head first into the sand and was assisted out of the water UP TRAFFIC, KICKS by Det.-Sgt. Johnson, of the Police, and Mrs. Johnson.

> A British soldier, who swam some distance out and was carried in also by the first wave, had also to be assisted ashore, some 10 or a dozen people going to his aid. Among those who were on

the beach at the time of the incident were Mr. H. B. Joseph, who was with a party Mr. Leo Landau, of Jimmy's Kitchen, Sub-Inspector and Mrs. W. L. Clarke, Mr. F. Zimmern, and a number of other European residents.

It may be remembered that some three years ago a Hongkong University student was drowned in similar incident at Shek O moved to the Queen Mary Hospital Beach.

Among those who were caught by A similar accident occurred at the first wave on Sunday was Sub-Canal Road about the same time Insp. Clarke who relates that he when a coolie hurt his foot by drop first sighted the wave when about 150 yards out from shore.

RESEARCH IN EXPAND

An expanded programme of research in pulp, paper and related products is provided for in a new agreement entered into by the Federal Department of Mines and Resources with the Canadian Pulp and Paper Association and McGill University. Under the terms of this agreement the Canadian Pulp and Paper Association undertakes to provide greatly increased support for the extension of studies aimed at the improvement of production methods and the reduction of manufacturing costs

The first agreement for such cooperative activity was entered into twelve years ago, at which time the Association erected a special research building on a site provided by McGill University.

The Dominion Government has a very definite interest in the pulp and paper industry as, in addition to occupying a leading place the country's export trade, this industry provides employment for thousands of high-skilled as well as unskilled workers.

Likewise the Canadian Pulp and Paper Association is fully aware of the necessity of research in order to maintain and improve the industry's position in the highly competitive markets of the world. and has manifested this interest by substantially increased approprintions for the operation of the Pulp and Paper Institute.

McGill as well as other Canadian Universities, finds through the pulp and paper industries broad field of employment for graduates in engineering, chemis-

try and other related sciences. Thus the Pulp and Paper Institute is an outstanding example. of the value of effective co-operation between government, industry and educational institutions chants, the price of rice in Shangin employing material and human hai has again soared to \$90 per resources to advance the country's picul. Government Drive To Make Malaya Self-Sufficient

The great support given to rice cultivation by the Malayan Government in recent times has already resulted in Malaya producing about forty per cent. of the rice consumed in the country-an approximate increase of ten per cent. Within the last five years.

There is confidence among members of the Agricultural Department that when the padi cultivation schemes which are being prepared at the moment are producing rice at full capacity, the gap between the rice grown in the country and imported rice will further be reduced, says the Malaya Tribune.

Mr. W. N. C. Belgrave, Director of Agriculture, S.S., and Adviser. FMS, who was in Singapore over the week-end, said, in an interview that he was satisfied with the steps now being taken in the country with regard to rice culti-

GOVERNOR'S GESTURE

Jonore is making great strides in the cultivation of padi. Quitrecently. Chinese financiers studied the question of intensive rice cultivation in the State, and together with improved irrigation, a larger area is being brought under

In years past, the cultivation of padi has been a Malay monopoly in the Malay States. Sir Shenton Thomas, in his drive for more padi cultivation, put ,an end to that monopoly.

Kelantan will soon have more land under padi than rubber, but having the densest population tricts most of the padi grown is conof the country.

Races other than Manays have been reluctant to take up padi cultivation because they thought it unprofitable. It was suggested by the President of the M.A.H.A. Dato F. W. Douglas, that a bounty be paid to growers of padi.

HIGHER STRAINS

A very encouraging feature of rice cultivation foday is that there is an intelligent demand among rice cultivators for higher yielding, strains

Partly due to the better yielding strain, the amount of padi produced has increased by 27 per cent. since 1923 in Malaya.

After seventeen years, Malaya has brought production to nearly forty per cent. of the amount of rice consumed.

Java has become self-supporting in rice after seventeen years with a population that rose from 343 millions to 441 millions. This is an achievement that Malaya can emulate with the supplied by customer.
